

Niitty 2 – Working together with immigrant families for a better everyday life 2023–2026

We promote the integration of
immigrant families by

supporting the **well-being** and
learning of children and families,

facilitating **participation** in family services
and early childhood education and

strengthening **collaboration** and
guidance in family services.

Explore Perheinfo guidance material portal.
Immigrant families actively contribute to
the production of the guidance material.
