

Community grant application

Fill in this form to apply for the Citizen Solutions to Sustainability Challenges community grant. The community grant is intended for local experiments and solutions related to climate-resilient mobility, energy and/or food in Tampere, implemented by the communities and residents of the Tampere region.

Applicant information

Name of the applicant *

Business ID *

Type of the applicant *

- Association or NGO
- SME, micro-enterprise or start-up company
- Housing company
- Cooperative
- Private entrepreneur

Other

Postal address *

Home municipality *

Home municipality is the municipality in Finland that is marked in company's articles of association (*yhtiöjärjestys*) or in the community rules.

Are you applying as an individual actor or as a consortium formed by several actors?

*

- Individual actor
- Consortium of several actors

Other actors in the consortium

List here other actors' name, business ID, type and home municipality.

Contact person's contact information

First name and last name *

Email address *

Phone number (voluntary information)

Community project details

Community project's name *

Community project's short description (maximum 500 characters) *

Primary theme of the project *

Energy

Mobility

Food

The project can relate to different themes, but choose one primary theme.

Applied sum *

Enter here the full amount you are applying for (between 5,000 - 60,000 euros). The detailed budget has to be included in the implementation plan.

What kinds of results does the project aim at? *

Practices, services or models related to sustainable mobility, energy and/or food that benefit people or communities in Tampere

Technological innovations that enable people to both produce and use sustainable solutions

New funding models for communities' climate actions

New operating models for residents' participation in the production and use of sustainable solutions

New information on what prevents or enables people's participation in the production and use of sustainable solutions

New forms of cooperation for climate actions between residents and local actors

Business opportunities and ideas for the Tampere region related to sustainable mobility, energy or food

Other:

Choose one or several.

Describe briefly the solutions developed in the project and intended results (maximum 500 characters).

*

How was the idea behind in the community project formed? *

- Inspired by this community grant
- It has existed before, but has been looking for funding

Describe briefly why you / your community are interested in developing solutions to sustainability challenges.

*

Confirm that no other EU funding has been received or applied for the same activity. *

I confirm that no other EU funding has been received or applied for the same activity.

We are asking this due to EU rules that prohibit double funding for same activities.

Attachments

The implementation plan of the community project is a required attachment for the application. In addition, the register extract and community rules are needed (except from private entrepreneurs).

Implementation plan *

Upload the implementation plan (maximum 6 pages) preferably in PDF format. We also accept formats DOC/DOCX, ODT and RTF.

Register extract from the Trade Register or the Register of Associations

If you are applying as a consortium of several actors, upload the register extract from each actor.

Community rules

If you are applying as a consortium of several actors, upload each actor's community rules. For companies, rules refer to the articles of the association (*yhtiöjärjestys* in Finnish).

Submission of the application

Before application submission we ask your consent for using the application material in scientific research conducted by Tampere University and Tampere University of Applied Sciences in the Urban Prosumers project. Through the community grant funding call, we examine citizens' roles and agency in climate work. The research data will be handled confidentially according to the legal requirements and ethical principles.

See the information sheet and privacy notice (the link will open to a new tab or window): <https://projects.tuni.fi/urbanprosumers-fi/tietosuojaseloste/>

I give my consent for using the application in the scientific research conducted in the Urban Prosumers project.
