NEXT-GENERATION  
SEMICONDUCTOR  
TECHNOLOGIES

APPLY FOR  
A FELLOWSHIP  
JULY 1 - AUGUST 31, 2026

FutureChips is a new postdoctoral programme at Tampere University, Finland, designed to build an elite research community in next-generation semiconductor technologies.

**The application period is from the 1st of July to the 31st of August, 2026.** Fixed term of 36 months, monthly salary before taxation of €4500.

Apply with your project idea to one of the four research areas: **Chip design**, **Advanced packaging**, **Novel architectures**, and **Advanced materials**.

## TO BE ELIGIBLE, YOU MUST:

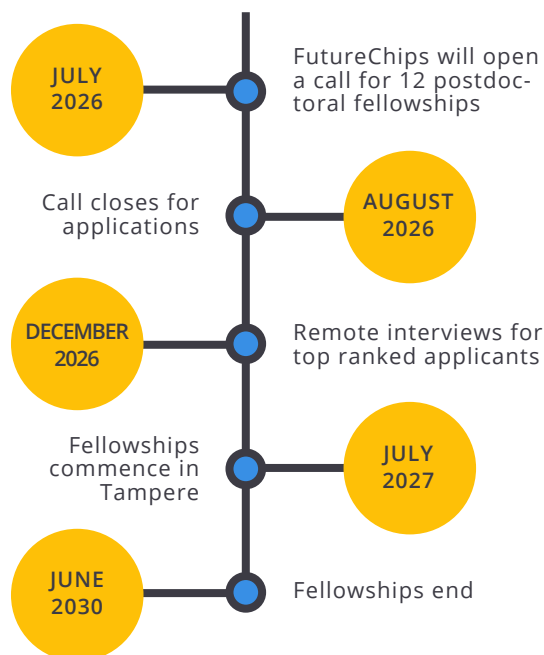

- ▶ be in possession of a doctoral degree by 31.8.2026.
- ▶ meet MSCA Mobility Rule requirements, i.e., not have resided or carried out their main activity (work, studies, etc) in Finland for more than 12 months in the 36 months immediately before the call deadline (end of August 2026).

Each eligible application is evaluated by three external independent experts.

Top ranked applicants will be invited to online interviews in November to December 2026.

Fellowships starting in July 2027 will end in June 2030.
