KEYNOTE SPEAKER

Sirpa Pietikäinen

Sirpa Pietikäinen, MEP since 2008. Earlier Minister of Environment and a Member of the Finnish Parliament. Among her many duties at European Parliament, she is active on the Environment and Public Health Committee (ENVI) and the Committee on Women's Rights and Gender Equality (FEMM). Active defender on constitutional and human rights throughout her political life.

The key aim of the EU funded ERICA Project (2019-2021) is to prevent and combat child maltreatment, by building the expertise of professionals concerning children living in families with child maltreatment risk. We developed the training program for frontline professionals and a mobile application for parents for risk assessment purposes.
